STRATEGIC PLANNING

To have a better approach for the near future we have made few strategic plans to bring out the best of the college performance by indulging in student care, development not forgetting the development for the teaching and non-teaching staff.

GOAL-1

The main goal of this strategy is to deliver quality education to our students and maintain advanced educational programs in all specialties and clinical disciplines by providing outcome-based knowledge in both basic and clinical aspects and also in state of the art clinical and pre-clinical facilities. A special attention will be on excellence of patient care by applying critical thinking skills and evidence-based practice.

An overall development will include entrepreneur skills which will include awareness of social responsibility along with emphasis on ethics in clinical practice and professional values in both practice and academics. Importance of nurturing lifelong learning and advanced technology and methods will be imparted among the students.

GOAL-2

Research in the field of disease epidemiology and pathogenesis, diagnostic aids, treatment modalities and novel dental materials.

The students will be provided with opportunities for research. The various establishments namely, Government, non-government organization, the industrial and corporate partnerships and private foundation will be used for the extra mural

funds required for the research. More opportunities in the national and international research collaboration will be encouraged.

GOAL- 3

Active patient care programs to meet the needs and expectations. It is with great care we will be providing excellent and cost-effective patient care with minimal time. Most of the procedures will be integrated with advanced patient care for diagnosis and treatment. To include all members of the society who are unable to entertain advance premium treatment procedure. A generalized awareness program for the general population about importance of oral health and practices to maintain the same.

GOAL-4

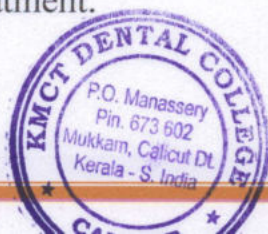

A team will be assigned for the NAAC approval. The team will help in collecting data and keeping all the required documents for the purpose of accreditation.

GOAL-5

The college will be applying for the seat enhancements in various departments. The departments that will be applying for this will be Department of Orthodontics, Department of Pedodontics, Department of Conservative dentistry, Department of Prosthodontics, Department of Oral Surgery.

GOAL- 6

As a part of advanced diagnostic aids, the college will procure a CBCT unit which will help in advanced research and diagnosis of various conditions. The institution has decided to implement smart classes by installing smart boards. The institution has also taken the initiative to set up an innovation & incubation center for encouraging and promoting newer ideas in the field of dentistry concentrating on different material and equipment for better treatment.
