LEARNING MANAGEMENT SYSTEM (LMS)
MOODLE

Contents

- 1 Objective
- 2 Scope
- 3 Application summary
- 4 Application Technical architecture
- 5 Version control
- 6 Backup Procedure
- 7 Roles and responsibilities

1.Objective

The main objective of the LMS is to host and track online learning. Providing a virtual hub where learners can access training resources, an LMS aims to make training accessible for remote learners and provide a central location for training across an institution or organization. Additionally, they make learning more streamlined, organized, and cost-effective. An LMS allows you to manage content, record and measure learning, store learner data, and communicate with (and enable communication amongst) users.

2.Scope

The document will define and guide the regular development and maintenance of the Moodle LMS with adequate control exercised in its version and backup and restoration activities.

3.Application summary

The learning management system is used for uploading and downloading course content online. The application is web-enabled and can be accessed from a mobile device or computer with an internet connection. Apart from course materials, announcements and circulars can be posted in the forum by the teachers or the management. The students can also share their thoughts on the platform.

4.Application Technical architecture

The Moodle platform is developed in PHP & Javascript for front and back end functioning. MySQL and Redis are being used for database and cache management. The entire system is running on the cloud and the resources are scalable for the current usage.

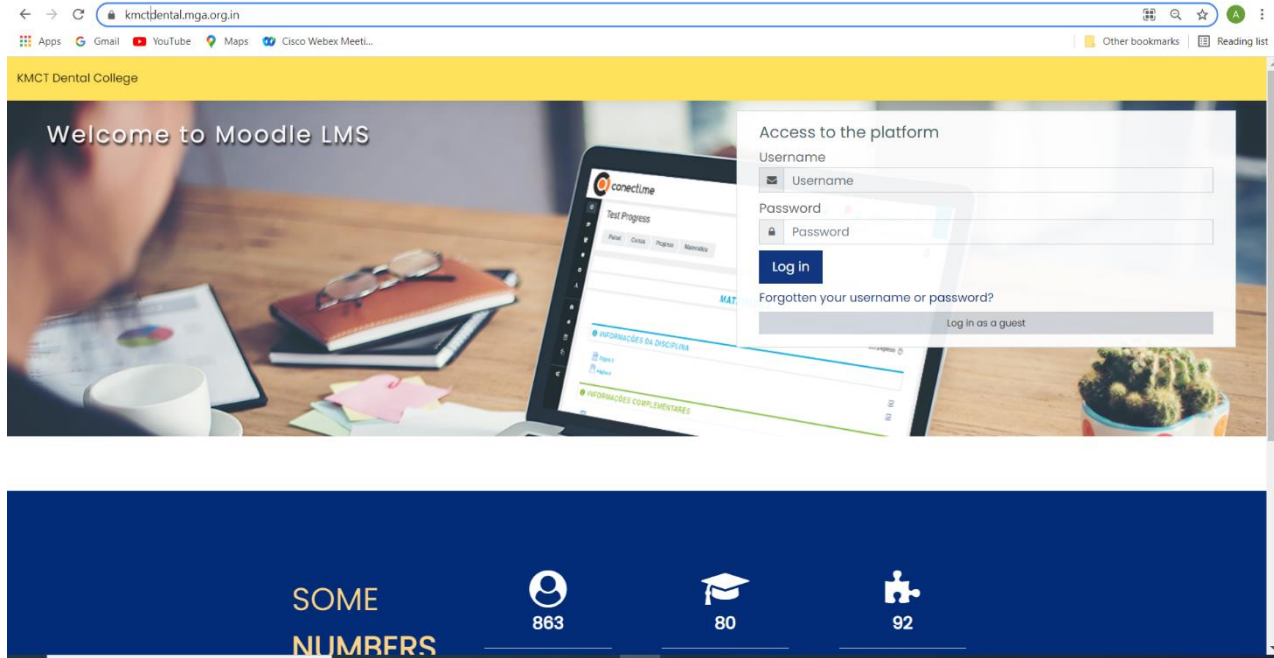

5.Version control

The Moodle platform is synchronized with the global Moodle releases. It will update automatically once a new version is available for the public to use.

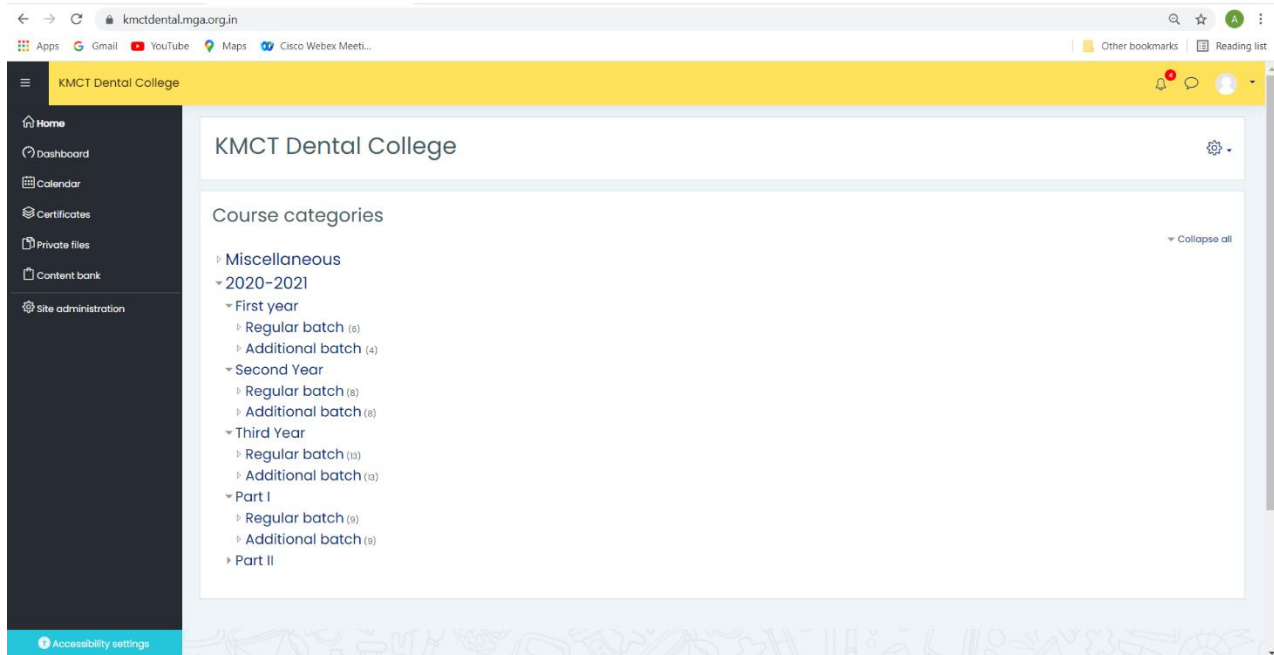

6.Backup Procedure

The frequency of backup of Moodle database is daily. It will take a backup of the database at 2 AM IST.

LIBRARY MANAGEMENT SYSTEM – ILMS
KOHA

Integrated Library Management System

(ILMS)

Tremendous increase in volume of information made difficult any library to acquire and store it. The library staff engaged with processing of information and less time to interact with users. User needs can't be fulfilled within a minimum time span. They are waited for long hours to get their information needs filled. After the development of ICT (Information Communication Technology), library also used computers for their operations that changed face of library.

An integrated management system is a computer based system used to manage internal and external resources. It performs library automation and collection development broken into different modules like acquisition, cataloguing and circulation that commonly done by library.

The main advantages of ILMS is to save space of library and time of staff and users, maintain accuracy and avoid duplication with better control over collection. The processing of library resources ie, cataloguing through data entry, spine labeling, barcode printing are easy by ILMS.

The circulation of library materials made simple by the use of ILMS and other advanced technologies. The Radio Frequency Identification (RFID) technology enables self-check-out/self-check-in of library resources without delay in time and help of library staff. Membership card containing RFID tag, member details and photo is used to identify the user.

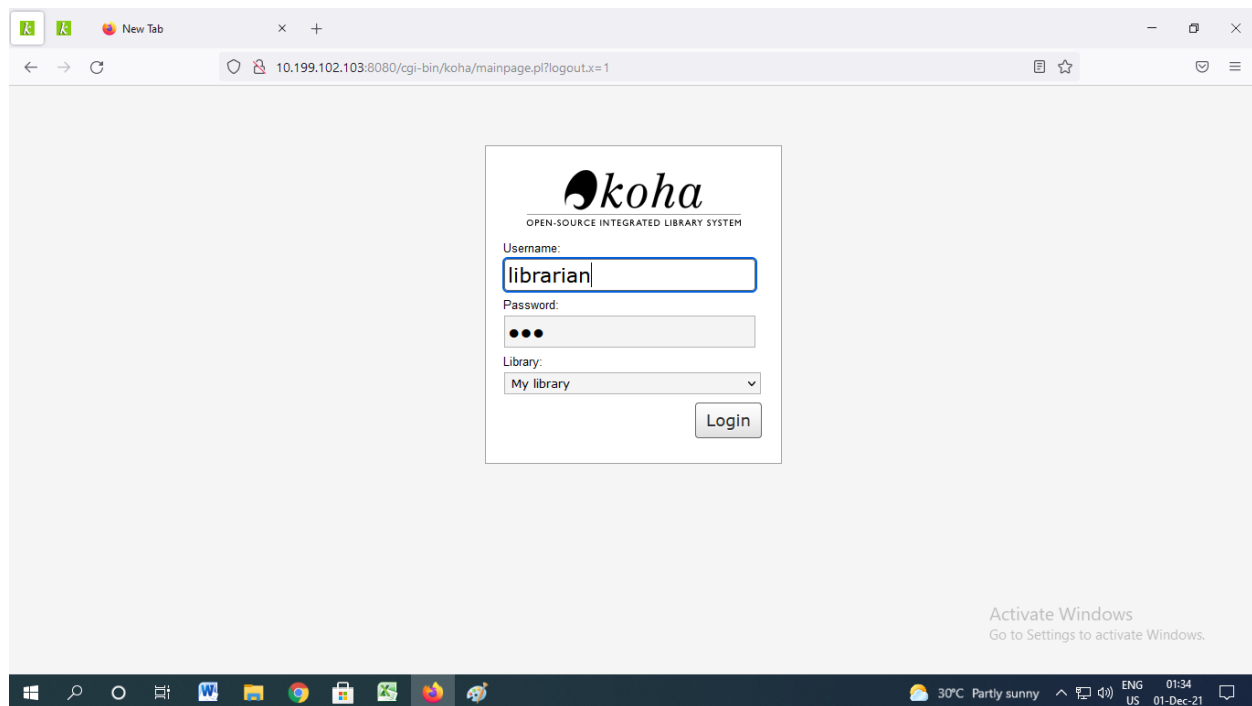

The RFID technology help to locating library books easily and quickly from the stack, Fast annual stock verification, finding of missing books and prevent theft of books.

Detailed library user information and their circulation history are available on a single click to the staff and monitor the trend of library usage and creating reports and statistics.

KMCT Dental College Central Library ILMS (Integrated Library Management System) Library Management Software (KOHA)

KOHA is open-source library automation software with multiple advantageous functionalities and languages that works best with ILS (Integrated Library System). On the same hand, KOHA is as effective with RFID too. KMCT Dental College Central Library Using this Open source Library management software of Version: 19.11.22.000.

Staff Login

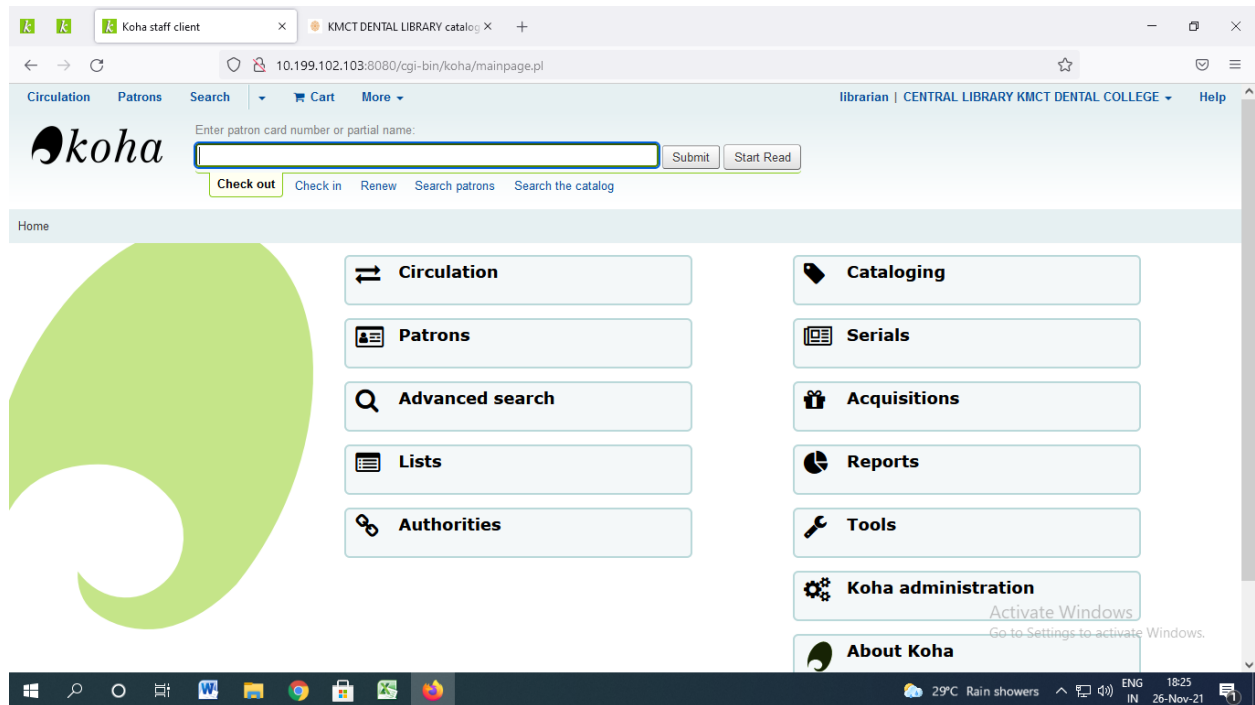

The screenshot shows a web browser window with the address bar displaying `10.199.102.103:8080/cgi-bin/koha/mainpage.pl?logout.x=1`. The main content area features the KOHA logo and the text "OPEN-SOURCE INTEGRATED LIBRARY SYSTEM". Below this, there is a login form with the following fields:

- Username:** A text input field containing the text "librarian".
- Password:** A password input field with three dots indicating the password is masked.
- Library:** A dropdown menu with "My library" selected.
- Login:** A button to submit the login information.

At the bottom of the browser window, there is a Windows taskbar showing various application icons and a system tray with the date and time (01:34, 01-Dec-21).

Home Page

About KOHA

Cataloguing of library resources

KOHA allows the librarian to create and maintain library resource database easily and effectively. The system supports MARC, UNIMARC formats and copy catalogue using Z39.50 search. Adding, editing or deleting a record if required is comparatively simple.

Classification of library resources

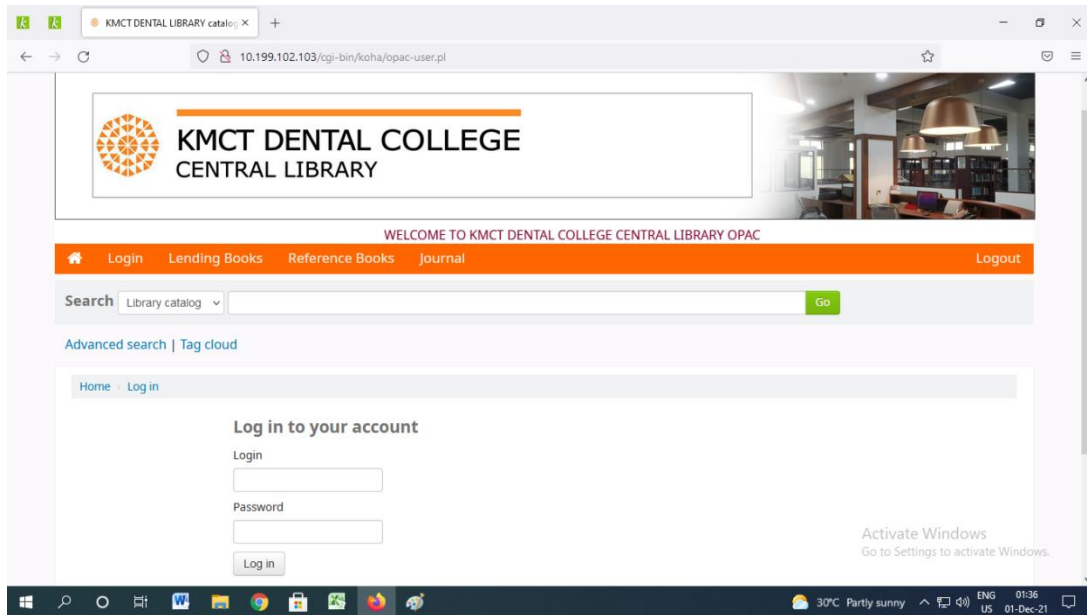

The KOHA Software permits to organize collections as item types (**such as books, CD, Reference, Department Books, Complementary Book etc.**) , Shelving location, Current location etc. along with Call number using DDC Classification Scheme.

Online Public Access Catalogue (OPAC)

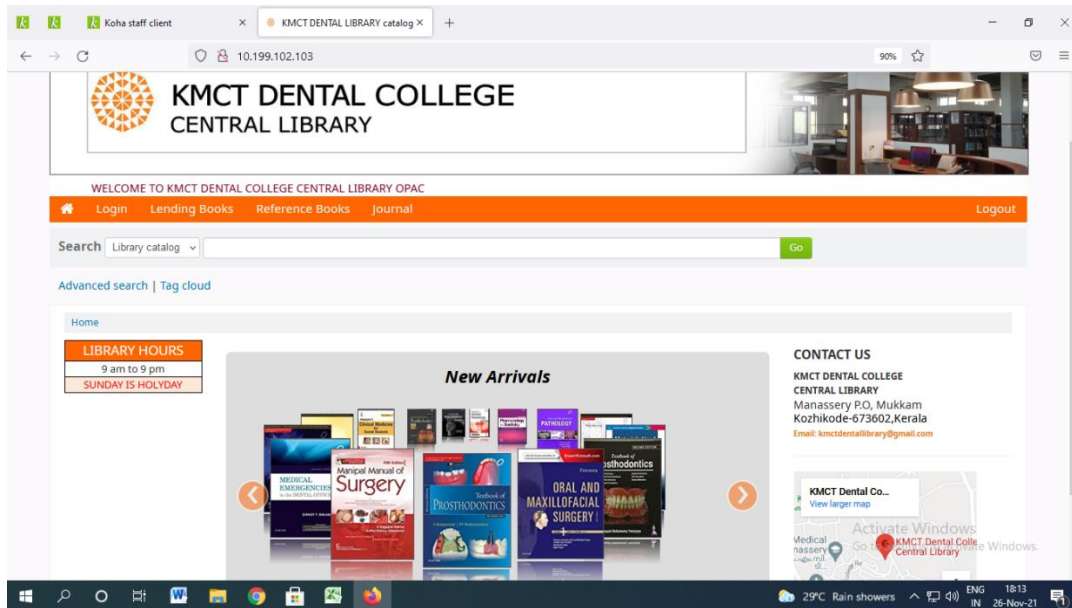

It is an online database of bibliographic records of library holdings. The easiest way to search the library catalogue. It reduces the time and effort of library staff and users in locating materials. This function can be customizable and search by author, title, subject etc. with advanced search. Users can see the cover flow of newly arrived books in the home page, by clicking on it they can

find out the details about that particular book. And also by using OPAC users can easily check the availability/holdings of a particular book in the library.

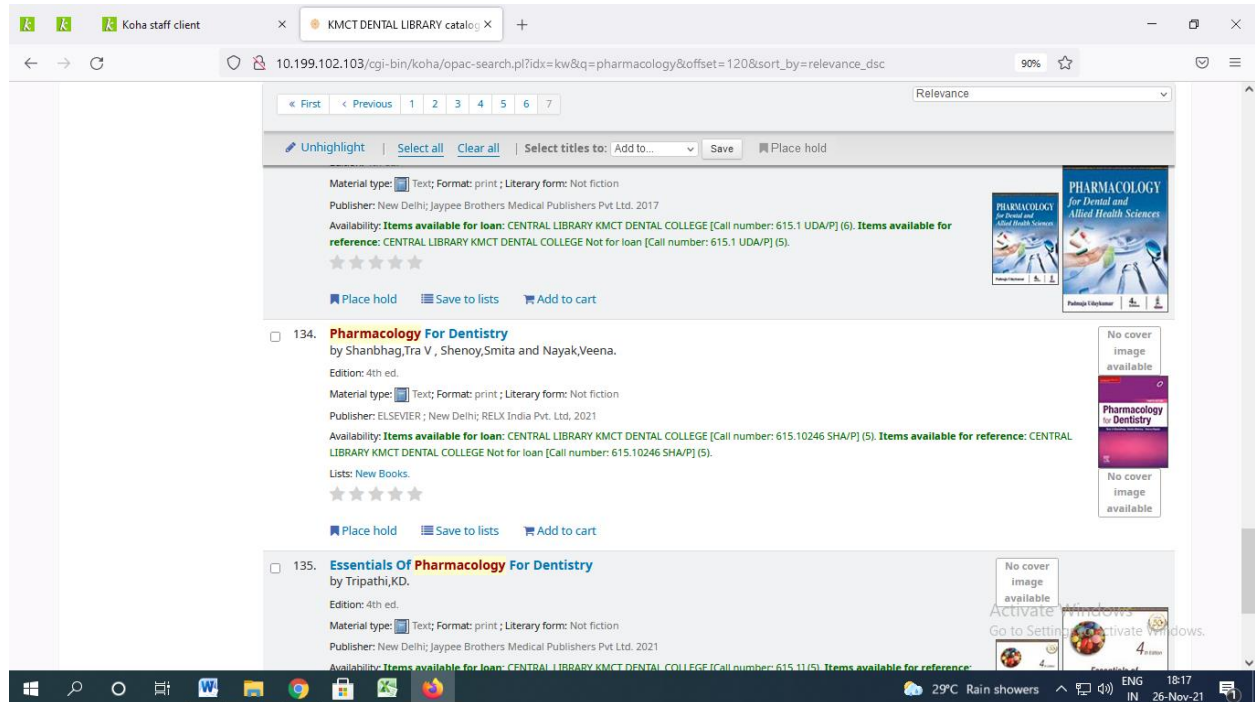

KOHA OPAC User Login

OPAC Home Page

OPAC Search Result

Circulation of library resources

Library lending process comes under this function. Check-out for issuing and check-in for return of books. It provides hassle-free lending, renewal, reservation and management of overdue loans.

Patron management

It deals with library member details including photo, validity, circulation history and fine calculation

Patron Details in KOHA

The screenshot displays the KOHA Circulation interface for a patron named Dr. Gayathri Krishna (1552). The interface is divided into several sections:

- Patron Information (Left Sidebar):** Displays the patron's name, photo placeholder, and details: Sreedhisham (H), Kallude, Perambra, Kozhikode, No email address, Category: STAFF (SF), Home library: CENTRAL LIBRARY KMCT DENTAL COLLEGE, Borrowernumber: 1195, and Updated on 28/10/2021 15:22. Action buttons include Check out, Batch check out, Details, and Accounting.
- Checkout Form (Main Area):** Includes a "Checking out to Dr. Gayathri Krishna (1552)" section with a barcode input field and "Check out" and "Start Read" buttons. There are also buttons for Edit, Change password, Duplicate, Print, Search to hold, Add message, and More.
- Checkouts Table (Bottom):** A table showing the number of checkouts by item type (2 Checkouts, 0 Holds, Restrictions). It includes a "Number of checkouts by item type" section with "Columns" and "Export" buttons. The table has columns: Due date, Title, Record-level item type, Item type, Location, Home library, Checked out on, Checked out from, Call no, Charge, Fine, Price, Renew (select all | none), and Check in (select all | none).

Due date	Title	Record-level item type	Item type	Location	Home library	Checked out on	Checked out from	Call no	Charge	Fine	Price	Renew (select all none)	Check in (select all none)
Today's checkouts													
06/12/2021	THE KITE RUNNER by KHALED (HOSSEINI) 4374	BOOK	BOOK		CENTRAL LIBRARY KMCT DENTAL COLLEGE	26/11/2021 14:04	CENTRAL LIBRARY KMCT DENTAL COLLEGE		0.00	0.00	0.00	0 ☐ (2 of 2 renewals remaining)	☐
Previous checkouts													
06/12/2021	ASURAVITHU	BOOK	BOOK		CENTRAL	16/11/2021	CENTRAL		0.00	0.00	0.00	1 ☐	☐

Manage book suggestions

Acquisition tab deals with the record of book suggestions and book procurement process. It helps to track book purchase to the library.

Serials control

It is an item comes on regular intervals such as journals, newspapers. The system manages subscriptions as receive issues, track issues, change frequencies and process claims.

Custom report creation

Report feature of ILMS minimizes the struggle of librarian to create various reports for the library. It can generate custom reports as per library needs by selecting fields to display in table form or in SQL commands.

KOHA Reports

The screenshot displays the KOHA Reports web interface. At the top, there's a navigation bar with links like 'Check out', 'Check in', 'Renew', and 'Search the catalog'. Below this, a breadcrumb trail shows 'Home > Reports > Guided reports wizard > Saved reports'. On the left, a 'Filter' sidebar allows filtering by Date, Author, and Keyword. The main area, titled 'Saved reports', shows a table of reports. The table has columns for ID, Report name, Type, Group, Subgroup, Notes, Author, Creation date, Last edit, Last run, Public, JSON URL, Cache expiry, and Saved results. The table lists six reports, including 'Accession Register', 'ACC REPORT', and 'ACC REG 2021'. A search bar at the top right of the table shows 'acc' and 'Clear filter' and 'Columns' buttons. The bottom of the image shows a Windows taskbar with various application icons and system information like '30°C Partly sunny' and '22:23 30-Nov-21'.

ID	Report name	Type	Group	Subgroup	Notes	Author	Creation date	Last edit	Last run	Public	JSON URL	Cache expiry (seconds)	Saved results
23	Accession Register					VJU V V (292)	21/11/2017	21/11/2017 17:14	25/10/2021 12:02	No	/cgi-bin/koha/svc/report?id=23	300	
32	Accession Register with Keywords/subject					VJU V V (292)	21/11/2017	21/11/2017 18:12	04/10/2021 13:15	No	/cgi-bin/koha/svc/report?id=32	300	
39	ACC REPORT					Librarian (1001)	15/11/2019	15/11/2019 02:30		Yes	/cgi-bin/koha/svc/report?id=39	300	
45	ACC REG 2021					Librarian (1001)	25/09/2021	25/09/2021 12:44		No	/cgi-bin/koha/svc/report?id=45	300	
53	ACC REG WITH SUBJECT					Librarian (1001)	20/10/2021	20/10/2021 14:41	27/10/2021 17:08	No	/cgi-bin/koha/svc/report?id=53	300	
54	ACC REG WITH CLASS NO					Librarian (1001)	20/10/2021	20/10/2021 15:11	20/10/2021 15:11	No	/cgi-bin/koha/svc/report?id=54	300	

Budget management

The library budget can be assigned, utilized and monitored by the software with effective manner. Budget administration shows active budget and inactive budget with the option to set currencies and allocate funds.

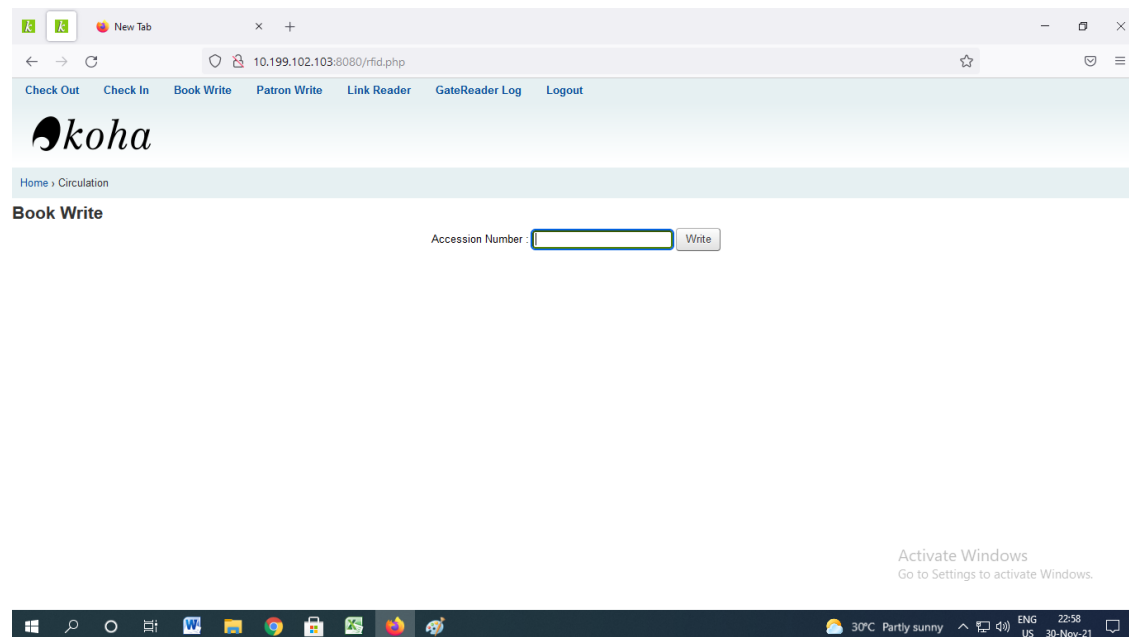

Auditing of library materials

Taking stock verification is a matter of seconds with the help of library management software.

RFID (Radio Frequency Identification) Library Automation System

KMCT Dental College Central Library is Using RFID system for library management. RFID is a wireless system comprised of two components: tags and readers. By tagging books and other returnable library assets, RFID enables efficient tracking and monitoring of these items. The RFID system is working along with KOHA Software automates the process of issue/return of the books and keeps record of transactions on a real-time basis. The system also helps in keeping accurate circulation/inventory reports.

RFID Tag writing Page in KOHA

The screenshot shows a web browser window with the address bar displaying '10.199.102.103:8080/rfid.php'. The browser's address bar includes navigation buttons (back, forward, refresh) and icons for bookmarks, extensions, and settings. The page title is 'New Tab'. The browser's address bar shows the URL '10.199.102.103:8080/rfid.php'. The page content includes a navigation bar with links: 'Check Out', 'Check In', 'Book Write', 'Patron Write', 'Link Reader', 'GateReader Log', and 'Logout'. Below the navigation bar is the KOHA logo. The main content area is titled 'Book Write' and contains a form with a label 'Accession Number:' followed by a text input field and a 'Write' button. The Windows taskbar is visible at the bottom, showing the Start button, task view, search, and several application icons. The system tray shows the date and time as '30-Nov-21' and '22:58'.

RFID Gates

RFID Gates is the anti-theft part of the Library RFID Management System using the same RFID tags embedded in the library items. Each lane is able to track items of about 1 meter and would trigger the alarm system when an un-borrowed item passed through them. The alarm will sound and lights on the gate will flash as patron passes through with the un-borrowed library material.

Digital Library

EBSCO

EBSCO-host is an intuitive online research platform used by thousands of institutions and millions of users worldwide. With quality databases and search features, EBSCO-host helps researchers of all kinds find the information they need fast.

KMCT Dental College Central Library Provides EBSCO research databases for e-journals, magazine and e-books Via Digital Library for users. They can easily download and read full text medical publishers e-journals, magazine and e-books. The registered users can also access e-resources through their mobile phone by using username and password provided by the Library.

EBSCO Home Page

The screenshot displays the EBSCO Home Page in a web browser. The address bar shows the URL: web.p.ebscohost.com/ehost/search/basic?vid=0&sid=fba71ef3-e131-42c5-9d88-95654e1f5b0e%40redis. The browser's toolbar includes links to Apps, Gmail, YouTube, Maps, OCLC Classify, JSS AHER Library, MDS: 57X | LibraryT..., and MGMCL catalog. The page features a blue navigation bar with links for New Search, Subjects, Publications, Images, Indexes, Sign In, Folder, Preferences, Languages, Help, and Exit. The EBSCOhost logo is centered on the page. Below the logo, a search bar contains the text "Searching: Dentistry & Oral Sciences Source, Show all | Choose Databases". The search bar has a text input field with the placeholder "Enter any words to find books, journals and more" and a green "Search" button. A "Create Alert" link is also present. Below the search bar, there are links for Search Options, Basic Search, Advanced Search, and Search History. At the bottom of the page, there are links for EBSCO Connect, Privacy Policy, A/B Testing, Terms of Use, Copyright, and Cookie Policy. The Windows taskbar is visible at the bottom, showing the Start button, search bar, and various application icons. The system tray shows the date and time as 23:06 on 30-Nov-21, along with weather information (30°C, Partly sunny) and language settings (ENG US).

ShodhShuddhi

ShodhShuddhi provides access to Plagiarism Detection Software (**Original (formerly Urkund) a Web Based Plagiarism Detection Software**) to all universities/Institutions in India. KMCT Dental College Central Library Provides access ShodhShuddhi via Digital Library.

Daily SMS / Email Alert for Absentee

This page is used to send SMS alert to parent mobile number on specific date if their ward is absent on any subject.

The screenshot shows the 'Email/SMS Alert for Absent Students' form. At the top, there's a header for 'KMCT Dental College' with a logo and navigation links. The main content area has a title bar 'Email/SMS Alert for Absent Students'. Below it, there are two radio buttons: 'Daily SMS / Email Alert for Absentee' (selected) and 'Periodic SMS / Email Alert for Overall Attendance'. The form contains several input fields: 'College*' (dropdown menu showing 'KMCT Dental College'), 'Academic Year*' (dropdown menu showing '--Select--'), 'Date*' (text input showing '20/05/2021'), 'Course*' (dropdown menu showing '--Select--'), and 'Term / Semester*' (dropdown menu showing '--Select--'). A green 'Go' button is at the bottom right of the form area.

Leave Application

This module is used to students can view their leave is approval or not. Students send the leave form to the Principal/vice Principal through online.

The screenshot shows the 'My Leave Application' form. At the top, there's a header for 'KMCT Dental College' with a logo and navigation links. The main content area has a title bar 'My Leave Application'. Below it, there are two columns of input fields. The left column contains: 'Name' (text input showing 'Dental superadmin'), 'Course' (text input showing 'None'), 'From Date*' (text input), 'No of Days' (text input), and 'Reason*' (text area). The right column contains: 'LeaveApplied By' (text input showing 'Dental superadmin'), 'Designation' (text input showing 'System Admin'), 'Contact No' (text input), 'ToDate*' (text input), and 'Leave Type*' (dropdown menu showing '--Select--'). At the bottom, there are two green buttons: 'Apply Leave' and 'Reset'.

Transport Allocation

The college transport management system used to allows to track passenger information accurately and Manage vehicle allocation during the academic year with proper allotment of vehicles to students.

The screenshot shows a web browser window with the URL `10.199.1.2/fms/TransportMgmt/fmTransportFeeAllocation.aspx`. The page header features the KMCT Group of Institutions logo and the title "Fee Management System". Navigation links include Home, Change Password, Logout, and a HELP button. A welcome message "Welcome fmsadmin" is displayed. The main menu includes Masters, Scholarship Management, Hostel Management, Transport Management, Fee Management, Email & SMS, and Reports. The "TRANSPORT ALLOCATION" section contains three dropdown menus: "Main Route Name" (with "--Select--"), "Vehicle No." (with "--Select--"), and "Academic Year" (with "--Select--"). A "Go" button is located to the right of the dropdowns. The footer contains copyright information for 2013 and a note about the application's design and development.
